- Game localization and cultural adaptation
- The art of creating immersive game worlds

Meta Topic 2: Environment and Scenarios
......

2. Constructing Scenarios

A user <u>shares an image</u> of a visually stunning video game environment and asks the chatbot for insights on how game developers create immersive worlds. They also <u>request an epic orchestral soundtrack</u> that captures the essence of exploring such game worlds.

3. Writing Chats

How do game developers create these worlds?
[image: A lush, expansive forest with towering trees and a river cutting through, from a video game.]

They blend art, technology, and storytelling to craft these immersive environments.

Can you provide an epic orchestral soundtrack for exploring this world?

Certainly. [music: An orchestral piece with soaring strings and powerful brass, evoking grandeur.]

4. Multimodalization
